

AYUSH KUMAR GUPTA

Ghaziabad, India | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate and Software Development Intern at Bharat Electronics Limited (BEL), with hands-on experience building AI-integrated and full-stack applications using JavaScript, Python, and C++. Skilled in prompt engineering, REST APIs, and object-oriented programming, with a strong foundation in data structures and algorithms. Seeking an AI Engineer / Software Engineer internship or entry-level role to apply practical development and applied AI skills.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science Engineering

IMS Engineering College

EXPERIENCE

Software Development Intern

Ongoing

Bharat Electronics Limited (BEL), Ghaziabad

- Contributing as a Software Development Intern at Bharat Electronics Limited (BEL), a government defense electronics organization, gaining exposure to real-world software development practices.

PROJECTS

CivicSphere AI

- Developed an AI-powered civic issue reporting platform integrating Google Gemini to assist users in reporting and tracking civic issues.
- Built the application using HTML, CSS, JavaScript, Node.js, and Express.js.

Image Steganography Tool

- Built a Python desktop application to hide and extract secret messages within images using Tkinter and Pillow.

Qt User Login Management System

- Developed a desktop application in C++ using the Qt Framework, implementing login, registration, and user information management functionality.

60 Days of AI Challenge

- Documented a self-directed 60-day AI learning journey covering prompt engineering, with progress shared through a GitHub portfolio and LinkedIn content.

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript, SQL

Web Development: HTML, CSS, Node.js (Basic), Express.js (Basic)

Desktop Development: Qt Framework (C++)

Databases: SQL, MongoDB (Basic)

Artificial Intelligence: Claude AI, Google Gemini, Prompt Engineering

Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), REST APIs

Tools: Git, GitHub, VS Code, Postman

CERTIFICATIONS

- AI in Process Intelligence — Celonis (EduSkills)
- Problem Solving (Basic) — HackerRank
- SQL (Basic) — HackerRank

ACHIEVEMENTS

- Solved 100+ problems on LeetCode, strengthening data structures and algorithms proficiency.
- Participating in the ABTalks 60-Day Claude AI Mastery Challenge, focused on applied AI and prompt engineering.
- Built multiple AI-integrated and software development projects across web, desktop, and applied AI domains.
